A 3D architectural rendering of a room. The room has a white floor and ceiling with four circular recessed lights. The walls are white, but there are two vertical panels with a patterned wallpaper. The top panel is light gray with a subtle, repeating pattern. The bottom panel is dark blue with a more prominent, repeating pattern. Two simple, white-outlined sofas are positioned in the room, one in front of each patterned wall panel. The room is viewed from a perspective that shows the floor and ceiling lines converging towards the back wall.
